# The VEHRDICT Is Out…
# and We're Guilty of Creating a Better EHR

Experience greater clinical control, deeper insight, and dramatically improved workflow efficiency — all with minimal up-front investment. VEHRDICT combines the latest AI advancements with a clean, intuitive design to streamline clinical documentation, reduce administrative burden, and support better patient outcomes.

## Five Reasons Providers Switch to VEHRDICT

### 1. AI-Driven Voice Documentation

Speak freely and let VEHRDICT convert your words into fully formatted medical documentation. Notes are structured, accurate, and ready instantly — no typing required.

### 2. Hands-Free Navigation with Voice Commands

Navigate encounters, open charts, review labs, or create orders without lifting a finger. VEHRDICT responds to natural commands, keeping your attention on patient care instead of your keyboard.

### 3. Automated Coding & Billing Intelligence

Our AI analyzes encounter notes to identify diagnoses, procedures, and coding opportunities. It extracts ICD-10 and CPT codes automatically, helping you submit correct claims and boost reimbursement accuracy.

### 4. Integrated Telemedicine with Auto-Summaries

See patients virtually and let VEHRDICT document for you. The AI listens, summarizes, and organizes the encounter into a clear clinical note, saving time and improving chart consistency.

### 5. Nationwide e-Prescribing

Securely send prescriptions to pharmacies across the United States. Benefit from medication histories, refill workflows, and safety checks that support better prescribing habits.

**VEHRDICT**
Provider Focused. Patient-Centered.

## E-PRESCRIPTION

Effortlessly manage orders and prescriptions with our integrated feature. Electronically order diagnostic tests, medications, referrals, and treatments directly within the system.

## TELEMEDICINE

Embrace the future of healthcare delivery with our Telemedicine capabilities. Our EHR system enables virtual consultations, allowing healthcare providers to conduct remote visits and provide quality care from anywhere.

## LAB INTEGRATION

The **e-Prescribing & Lab Integration** features in VEHRDICT are designed to streamline medication management and lab workflows within your practice.

## PATIENT PORTAL

Boost patient involvement and satisfaction with our interactive patient portal. Provide secure access to personal health data, such as lab results, visit summaries, and medication histories.

# A Smarter EHR, Powered by Voice + AI

EHRs are rapidly evolving beyond simple digital charts into intelligent clinical assistants, powered by voice recognition, automation, and advanced AI. Practices that adopt these technologies now are gaining significant advantages in accuracy, efficiency, and patient engagement. As documentation demands continue to grow, voice-driven workflows help providers reclaim valuable time and reduce burnout. AI is also reshaping the future of patient care by identifying patterns, supporting clinical decision-making, and eliminating repetitive administrative tasks. The next generation of EHRs will be defined by systems that anticipate needs, streamline complex tasks, and adapt to each provider's style of practice.

VEHRDICT stands at the forefront of this shift, giving practices a future-ready platform that grows smarter with every encounter. Embracing this technology today positions your organization for higher productivity, better outcomes, and a more sustainable workflow for years to come.

# The Final VEHRDICT

At VEHRDICT, we set out to build an EHR that works *with* providers, not against them. By blending smart automation with clean workflows, VEHRDICT helps reduce administrative load, improve chart accuracy, and create a better experience for both clinicians and patients. The VEHRDICT is clear: it's time for an EHR that finally makes your work easier.

We are dedicated to understanding and serving the needs of our customers. With a long history of proven reliability and client satisfaction, we approach every relationship as a true partnership, working side-by-side to support your success. Our philosophy is simple: when our clients thrive, we thrive. We operate with honesty, integrity, and a commitment to delivering solutions that genuinely make a difference in daily clinical workflows.

## FEATURES AVAILABLE
